@baderintermediate

Welcome to Bader

As the Principal of Bader Intermediate School, I am thrilled to invite you to join our dynamic and innovative learning community. Our school is dedicated to providing your child with the best educational opportunities and preparing them for the future.

With over 15 years of teaching experience in both public and private schools and 20 years in banking and finance, I bring a unique blend of knowledge and expertise to the role of Principal. My extensive understanding of middle school education and my experience in finance enable me to lead the school towards excellence.

At Bader Intermediate, we embrace a student-centered approach to learning that prioritizes individual growth and development. Our small tutor groups provide personalized support, and students have the opportunity to learn alongside peers and teachers from diverse backgrounds. Our students are given access to cutting-edge technology, including Photoshop, laser cutters, and 3D printers, to bring their ideas to life and have a voice in their subject selection and schedules.

We are proud to serve the Mangere community and provide a safe, inclusive, and nurturing learning environment for your child. Our dedicated and knowledgeable staff are committed to meeting the unique needs of each student. I invite you to join us and experience the difference at Bader Intermediate School. Your child deserves the best educational opportunities, and I am confident that we have what it takes to help them reach their full potential.

Jerry Leaupepe
Principal

At Bader Intermediate our school values are a fundamental element of development for every student. We teach students to have a positive outlook towards education, improve on how they interact, and more importantly, how to take more control of their own learning.

RESPECT

Learn how to accept others, build trusting relationships and contribute towards a positive school environment.

COURAGE

Learn how to be brave with sharing your ideas, views and options, and how to stand up for yourself and others.

CREATIVE

Learn how to create and develop your own original ideas, how to expand your ideas, and how to bring them to life.

ADAPATABLE

Learn how to adjust your thinking when working with others or when confronted with challenging ideas, concepts or problems.

INTEGRITY

Learn about moral obligations to being an active learner and member of the school and the wider community

HOUSES

Bader Intermediate Curriculum Design

Empowering Innovative Education

The Sciences

Students learn about New Zealand history and important events. Further study into the Pacific region is also delivered. STEM is a key feature where students are taught science concepts and then use technology to showcase their understanding.

Technology

Developing broad technological design skills is a key focus in Technology. Through the use of modern equipment like 3D Printers and Laser Cutters, students are able to bring to life their ideas and designs to show their understanding of a given design aspect.

English

Students are taught to speak, read, and make sense of information through literature, movies or music. All students are nurtured and guided to become effective oral, written, and visual communicators who are critical with their thinking and ideas

The Arts

Creativity is driven through three key areas within The Arts. Drama focusses on human expression through time and space. Dance is expressive movement to integrate thinking, moving, and feeling. Music explores and represents ideas through music composition.

P.E. & Health

Development of fine motor skills is a key area of development for students focusing on how this contributes to their growth physically and mentally. Students work collectively to develop competencies for mental wellbeing, safety management, and their nutritional needs.

Mathematics

Students explore number and strand concepts, and are taught how to use symbols, graphs, and diagrams to understand mathematical concepts. Creating models that allow students to showcase their thinking of hypothetical situations within a mathematical context.

EXPLORE

ENTREPRENEUR CURRICULUM

WHY PROMOTE ENTREPRENEURSHIP?

Students experience entrepreneur education with a key focus on developing real-world skills such as, working in a team, collecting data, using social media tools, understanding market trends, financial literacy, and engaging with real world financial contexts. Students learn to understand the product development cycle, how to design their own business proposals and present their ideas.

STREETWEAR

Learn how to produce clothing items based on market trends and styling.

CULINARY

Learn how to make a variety of coffees, food items and then arranging a 'café' day.

JINGLES & MUSIC

Create and upload your own musical jingles or mixed music compositions.

PRINT & SELL

Design and create a variety of consumable items that can be marketed and sold.
